UVOD

1. Korišćeni programski jezici

Korišćeni jezici u toku izrade sajta: **HTML, CSS(SASS), JavaScript, jQuery, XML**

Osnova sajta je teško bazirana na preuzet [template](#) ali je sav kod i text koji se nalazi na sajtu lično napisan.

Link ka templejtu: <https://themeforest.net/item/garcia-camera-store-html-template/24035123>

Radno okruženje: **Visual Studio Code, Photoshop CS6**

Korišćen je „[Slick](#)“ plugin za jQuery.

2. Funkcionalnosti

Zajedničke **funkcionalnosti** za sve stranice:

1. **Dinamički ispis ponavljajućeg sadržaja**
2. **Provera putanje otvorene stranice radi ispisivanja posebnog koda**

Stefan Jović - 28.04.2023.

> index.html

Slick panorama proizvoda na akciji.

> shop.html

Dinamička lista proizvoda koja se formira putem ajax poziva. Koristeći razne **filtere** (pretraga po imenu, cena, brend, akcija, tip aparata) i **sortere, formira se nova lista proizvoda.** Takođe svaki proizvod ima **dugme** na sredini kojim korisnik može da **doda taj proizvod u korpu.**

> contact.html

Provera tačnosti forme sa ispisom i uokviravanjem grešaka.

> author.html

Interaktivno dugme za preuzimanje dokumentacije.

> registration.html

Forma za **logovanje** i **registrovanje** koja koristi **Local Storage.**

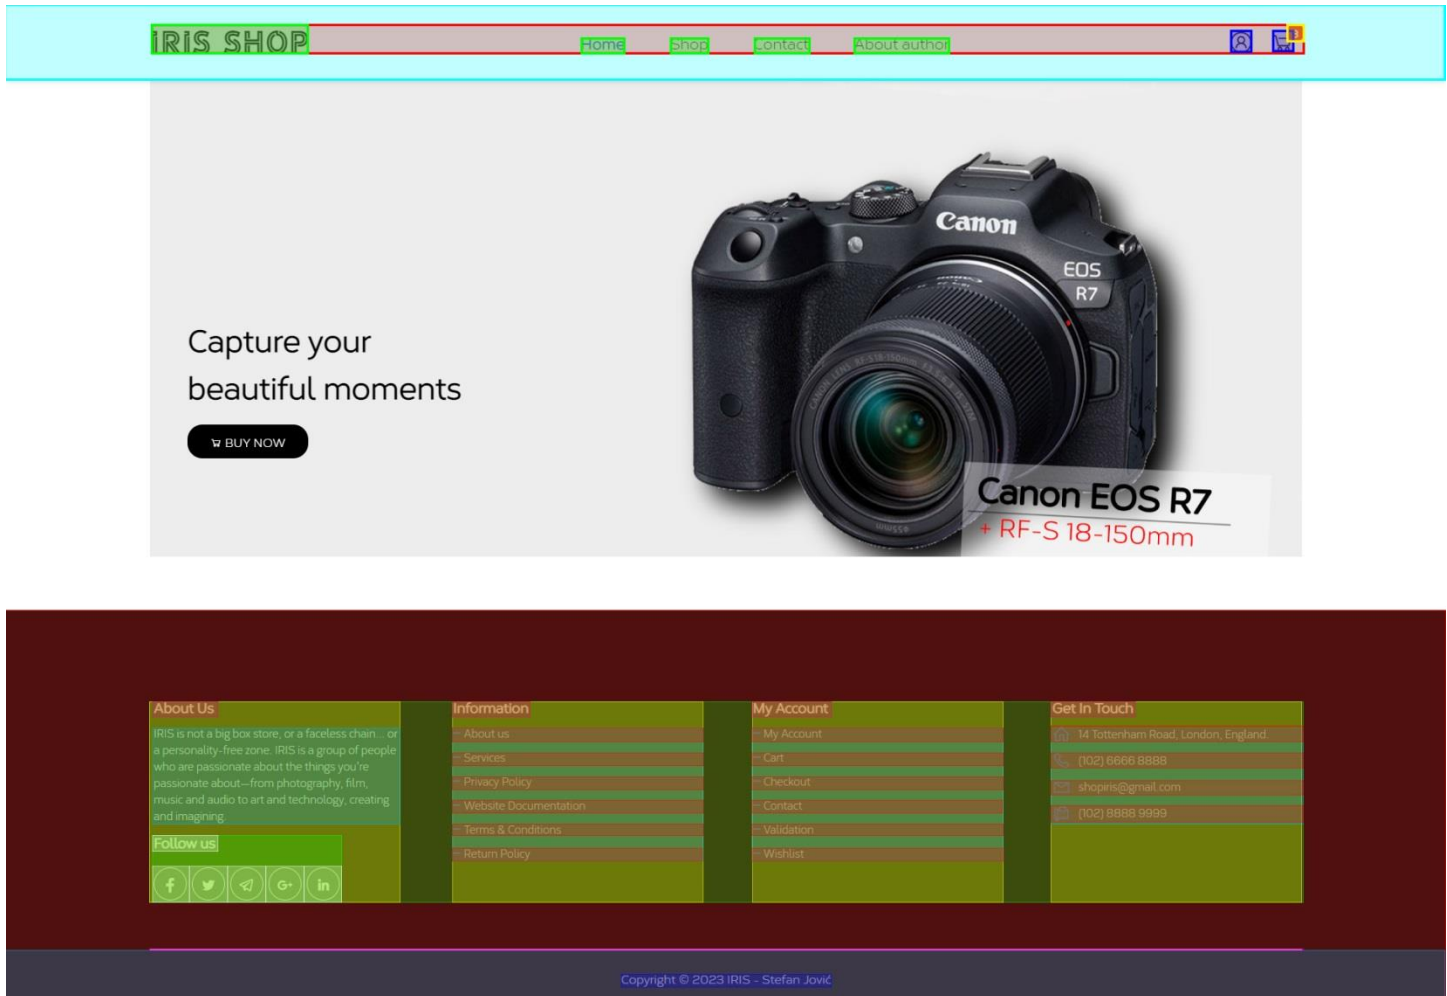

> cart.html

Tabela koja **iščitava proizvode dodate u korpu (Local Storage)** i prikazuje ih.

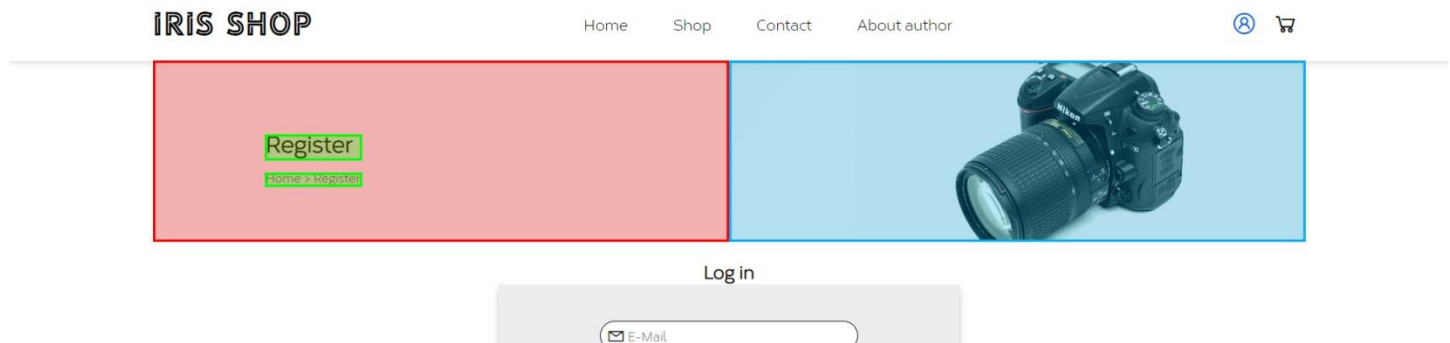

Takođe se nalazi i mali blok koji **računa finalnu cenu**, kao i polje za **kupone** kojim se može ostvariti još veći popust na celokupni trošak.

3. Template

Template sajta delim na dva dela zbog toga što je indeks stranica jedinstvena ali opet sadrži 2 template elementa, svoju **navigaciju** i **footer**, dok druge stranice pored nava i footera imaju **banner** na vrhu koji takođe spada u template.

Slika iznad sadrži uokvirene divove i elemente od kojih se sastoji **navigacija** i **footer**.

Slika iznad sadrži uokvirene divove i elemente od kojih se sastoji **template banner** ostalih stranica.

> Prikaz, ažuriranje, filtriranje i sortiranje koristeći AJAX pozive

Efekat ažuriranja proizvoda se vrši putem AJAX poziva koji uzima informacije iz .JSON fajlova. Sve informacije iz .JSON fajla su sačuvane u Local Storage putem AJAX-a. Ukoliko se iskoristi filter ili sortiranje proizvoda, javascript funkcijama se vrši filtriranje i sortiranje nad sačuvanim podacima u Local Storage-u. Filtriranje se vrši prvo i ono je kaskadno, svaki filter se izvršava nakon jedan nakon drugog a na kraju se vrši sortiranje nad tim podacima.

Filtriranje se može vršiti po imenu proizvoda, tipu, brendu, ceni i statusu da li je na nekoj akciji.

> Validacija kontakt forme i obrada grešaka

Kontakt forma (kao i forma za registraciju i logovanje) sadrži sistem za obradu grešaka i validaciju. Slike ispod predstavljaju primer unosa pogrešnog formata imena.

Prazna forma:

*First name:

Your first name

eg. Jack

Korisnik unosi svoje ime ali sa početnim malim slovom:

*First name:

stefan

eg. Jack

Polje se crveni na par sekundi sa tekstom „Name in wrong format“ da obavesti korisnika o svojoj grešci. Ova provera se vrši putem regularnih izrara, konkretno u ovom slučaju: `\b([A-ZÀ-ÿ][-a-z. ']+[]*)+/.`

*First name:

Name in wrong format

eg. Jack

U polje se vraća vrednost unesena od strane korisnika ali porukica ispod ostaje crvena sve dok korisnik ne unese pravilno svoje ime.

*First name:

stefan

eg. Jack

U slučaju da korisnik pravilno unese sve informacije i pokuša da ih prosledi pritiskom na dugme „SUBMIT FORM” ispod, dugme menja svoju boju i tekst da obavesti korisnika o uspešno poslatoj poruci. Takođe dugme dobija atribut disabled da ne bi došlo do slučajnog ponovljenog slanja. Da bi se dugme ponovo aktiviralo, potrebno je resetovati formu pritiskom na dugme „RESET FORM” odmah pored dugmeta za slanje.

*Message:

RESET FORM

> Dodavanje u korpu, sistem korpe i obračunavanje cene

Korisnik može da doda proizvode u svoju korpu pritiskom na belo dugme sa ilustrovanom korpicom na svakom proizvodu.

Nakon pritiska na dugme se u gore desnom uglu ekrana, na ikonici korpice, pojavljuje broj u crvenom balončiću koji poraste na sekundu da bi obavestio korisnika o uspešnom dodavanju proizvoda u svoju korpu.

Pritiskom na koricu se prebacujemo na stranicu cart.html

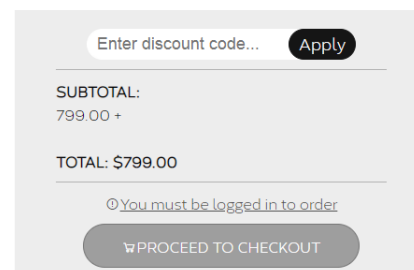

Stefan Jović - 28.04.2023.

Ako korisnik pre pristupanju korpe nije ništa ubacio unutra, prikazaće mu se prazna korpa na sledeći način:

Pri dodavanju proizvoda se pojavljuje tabela i obračunava se cena u bloku sa desne strane:

Index	Product	Quantity	Price	Controls
1	 Canon Powershot G7 X Mark II	<div>^</div> 1 <div>v</div>	\$799.00	

Pri dodavanju novih proizvoda se dinamički obračunava cena i proširuje tabela. Takođe u slučaju da klijent želi da kupi više istih proizvoda, može koristiti dugmiće koji povećavaju ili smanjuju količinu proizvoda za kupovinu. Broj istog proizvoda takođe utiče na njegovu cenu u tabeli i ukoliko korisnik pokuša da smanji broj proizvoda na nulu, taj proizvod nestaje iz korpe. Isti efekat se postiže pritiskom na crvenu kanticu na kraju tabele koja odmah uklanja proizvod iz korpe, nebitno od toga koliko istih proizvoda je izabrano.

Stefan Jović - 28.04.2023.

Index	Product	Quantity	Price	Controls

2	 Sony a7 III with 28-70mm f3.5-5.6 OSS Mirrorless Kit	1	\$1,819.35

Klijent ne može izvršiti svoju kupovinu ako se pre toga ne registruje. Zbog toga je dugme za Checkout sivo.

Klijent takođe ima opciju da iskoristi kupon kojim može da ostvari još veći popust na celokupni iznos korpe. Popusti se mogu u kodu dodati kao objekat.

Kao primer, dodat je kupon „web2“ koji daje popust od 20%.

> Registrovanje korisnika i logovanje

Registrovanje korisnika se vrši pomoću Local Storage-a. Pri unosu svojih kredencijala, ako su svi podaci dobro uneti, pravi se novi objekat naloga i čuva se u Local Storage-u. Ukoliko klijent želi da napravi novi nalog sa istom e-mail adresom, to neće biti moguće i prikazaće se greška na dugmetu za registrovanje.

EMAIL ALREADY IN USE

Takođe ako korisnik pokuša da prosledi praznu formu ili unese loše kredencijale, polja se zacrvne na par sekundi sa porukom:

Register

The image shows a 'Register' form with several input fields. The 'Username', 'Email', and 'Password' fields are highlighted with red borders and red error messages: 'Wrong username format', 'Wrong email format', and 'Wrong password format'. Below the password field, there is a note: 'Must contain at least one small and big letter, a number and a special character.' The 'Repeat password' field is also highlighted with a red border. The 'Gender' section has two radio buttons, 'Male' and 'Female', both of which are selected. The 'Date of Birth' section has three dropdown menus for 'DAY', 'MONTH', and 'YEAR', all of which are highlighted with red borders. At the bottom, there is a checkbox labeled 'I have read and agree to the Privacy Policy' which is not checked. A black 'REGISTER' button is at the bottom of the form.

Stefan Jović - 28.04.2023.

Koristi se isti princip kao i kod forme za kontakt tj. čuvaju se kredencijali korisnika da bi se ponovo ispisali nakon prikaza greške.

Pri uspešnoj registraciji se korisnik takođe obaveštava preko dugmeta.

Primer uspešne registracije:

Log in

A login form on a light gray background. It features two input fields: the top one is labeled 'Email' with an envelope icon, and the bottom one is labeled 'Password' with a lock icon. Below the password field is a link that says 'Forgot password?'. At the bottom, there are two buttons: a black 'LOG IN' button and a black 'CREATE NEW ACCOUNT' button, separated by the word 'or'.

Logovanje takođe sadrži svoju validaciju ali jedino u vidu praznog polja. Ako klijent stisne da dugme „LOG IN“, proveriće se da li su polja za mejl i lozinku prazna. Ako jesu, klijent će biti obavešten sličnim načinom kao i na prošlim formama.

Log in

A login form on a light gray background, identical in layout to the first one. However, the input fields are highlighted with red borders and contain the text 'Empty field'. The 'Email' field has an envelope icon, and the 'Password' field has a lock icon. Below the password field is a link that says 'Forgot password?'. At the bottom, there are two buttons: a black 'LOG IN' button and a black 'CREATE NEW ACCOUNT' button, separated by the word 'or'.

Stefan Jović - 28.04.2023.

U slučaju da klijent unese svoje kredencijale, proveriće se da li se u listi naloga (u local storage-u) nalazi nalog sa tim kredencijalima. Ako ne postoji, korisnik je obavešten preko dugmeta.

A login form with two input fields. The first field contains the email address 'paxton@gmail.com' and has an envelope icon on the left. The second field contains a password represented by six dots and has a lock icon on the left. Below the password field is a link that says 'Forgot password?'. At the bottom of the form is a red button with the text 'WRONG CREDENTIALS' in white capital letters.

A u slučaju uspešnog logovanja se prikaže sledeće:

A login form with two input fields. The first field contains the email address 'stefanjovic562@yahoo.com' and has an envelope icon on the left. The second field contains a password represented by six dots and has a lock icon on the left. Below the password field is a link that says 'Forgot password?'. At the bottom of the form is a black button with the text 'SUCCESSFULLY LOGGED IN' in white capital letters.

Par sekundi nakon uspešnog logovanja, klijent se redirektuje na index stranicu.

Ulogovan klijent se upisuje u local storage pa se stranice od kojih zavisi ta informacija menjaju pri učitavanju sadržaja.

Ako klijent pristupi stranici za registrovanje, biće izlogovan.

combines exhilarating speed and performance with a smart, compact design. It can be ideal
for travel, events and anywhere on the go, or as a secondary camera, and features a high-
performance 1.0-inch 20.1 Megapixel CMOS sensor as well as a bright f1.8-2.8 lens to help
capture impressive images whenever your creativity sparks, even in low light conditions.
The DIGIC 7 Image Processor immediately pays dividends with improved auto focus tracking,
enhanced IS and superb image clarity even when shooting with a high ISO. For increased
flexibility, the PowerShot G7 X Mark II offers high-speed continuous shooting up to 8 fps
in RAW, JPEG and RAW+JPEG modes, and is equipped with Full HD capability, built-in Wi-Fi
and NFC and in-camera RAW conversion, giving you everything you need to capture inspiring
images and video and share them with ease.",
